

How to Steward a Prophetic Word?

by Shannon Hodges

1. When you are given a prophetic word, you test the word. People will throw words out that are not of God.
2. When you are given a prophetic word and it is from God, He will confirm that word.
3. Record the word and listen to it, over and over again.
4. Type the word out...word for word.
5. You honor the word, you honor what God speaks into your life.
6. You pray into it. (Example: God, this word is impossible and I have no idea how you are going to bring this to pass, but you said it!) Keep praying in spite of a lack of evidence that it's coming to pass.
7. Speak the word over your life by confessing it **aloud**.
8. Completely surrender to God regarding the word and give Him your "YES!"
9. There is a process involved when you get a prophetic word to get from "Point A to Point B."
10. Keep surrendering and giving your "yes" over the word until you receive the birthing of that word.
